all our asias achievements. all of our asias. all our asias

fun for kid's and adults. Holy\u2665\u2665\u2665\u2665\u2665..

I don't know what to say..., it's just so \u2665\u2665\u2665\u2665ing amazing. Honestly.

If that's not the best way to improve your aim at any aspect, idk what will do it.....

I got so \u2665\u2665\u2665\u2665ing much reflexes and tracking than before, in all my fps games that it's literally creepy.

If you want to improve your aim really fast, just search some workout routines on internet for KovaaK and try them.

Ofc you'll not be a god in 1 day, that's kinda obvious, but do your workout properly, your aim will be so much smooth and tracky than before.

I just played 10h and my aim is already way better than before..

All my friends always said that my aim is \u2665\u2665\u2665\u2665ing tracky and insane, lol, I want to know what will be their reactions now owo

SOOOO, just play it, onegai ~ (that's \u2665\u2665\u2665\u2665ing worth the price). Guys, help me please. i can use US units only in multiplayer, but i can't recruit it in War of independence campaing. what i must do?. Clunky controls.. Bought it for the Peace Day but it never came.

0V10. Finished ch4 and ch5 and these are what i want to tell you

- Prepare more tissue paper, new scene to make you cry again.

- Add another 20 hour to my gameplay time.

- Worth the money spent.

And for anyone who can't start chapter 4

- Just load your most recently ch3 save

- Skip all dialogue (or you want to go through it again), your choice ;)

- When ending finished and you are at the main menu again, just start new game and choose chapter 4

in short, just do exactly the same as you do when you start ch2. Enjoy.

The classes are well developed and relatively well balanced. The gameplay is simple, yet addicting. The in-game dialogue/lore tooltips give just enough lore to give the player a feeling of immersion without making the game be story-intensive. However, any praise that I have for this game ends here.

I paid \$20 (deluxe edition) for essentially a flash game with a few extra features tacked on top. I enjoy playing the game, but it's not worth the money for what you get. One would think that, if the gameplay itself is lacking for the price, then it would at the very bare minimum entail half-decent customer support. This game hasn't been updated in ages and there's been absolutely no interaction from the developer since 2015.

I have come across a variety of bugs in the 115 hours I have invested into this game, and emailed the developer. Not only has there been absolutely no response, but absolutely no effort is being taken to moderate the amount of RAM-hacking used to attain top positions on the leaderboard.

There are people who've, upon my looking up their steam profiles to investigate, have barely invested 10 hours in the game and have gotten:

- all the achievements
- scores that are not obtainable through normal gameplay
- top positions on the leaderboard

If the developer of the game makes you pay money (three times the amount the game is worth imho) for a few extra features - the leaderboard being one of them - and then doesn't give half a fresh \u2665\u2665\u2665 as to moderating the leaderboards to make the game fun and enjoyable for everyone, there is absolutely no point in buying the game. A lot of people play the free version on kongregate. The free version's leaderboards are, at the very least, balanced - praise I wish I could be giving to the steam version.

In summary, the game is quite fun but it's a shame that it's riddled with bugs and absolutely no effort is being made to moderate cheating/hacking into the leaderboards. The developer has abandoned the project, and it's not worth half the money it's listed for.. Bought the game and started a new Pro Cyclist career. Got to the first race of the season...the game crashed whilst loading. Figured that it was probably a glitch with that particular race, so I decided to simulate that race and move onto the next.

Turned up to the second race of the season...the game crashed whilst loading. It can't be the spec of my laptop, as it far exceeds the recommended settings.

Realised that the 3D mode probably doesn't work properly, so deleted the game and decided to play something that won't constantly frustrate me. £35 down the tubes.

DON'T BUY THIS GAME.. Part color sorter, part side-scrolling space shooter, part intergalactic soccer, BlamBox is easy to play but insanely difficult to master.. What are you doing here? Just buy it and have fun!. Allright lets get this game over and done with.

Firstly- It's a fun game, secondly its not the best game. It's an indie game so dont whine too much. Its not bad. Having said that. It is a game ported from a mobile game sothere is bound to be issues.

Pros

Its exactly like the mobile game as in it is exactly like the mobile games minus the dlc. in the mobile game the dlc are something you have to buy kromium to get. Here at least you just have to buy the the dlc and you get the titans. Its for casual gamers. Dont think of spending hundred of hours into it. Seriously its just a casual gaming game. If you want to grind by all means but its better playing it, stopping doing other things then when you feel like it go back to it.

Cons

Its exactly like the mobile game. I mean come on at least change it up a bit its suppose to be in the computer. Try out better graphics or having more ship not just use the exact same game and just port it to the pc. THE fact you have to grind like hell just to get things. Like seriously no to grind, a little bit is okay but to spend more than a few minutes just to afford a new shp or a new weapon thats given at random is freaking insane.

Having said that have fun and give it a try. The plane controls cannot be reversed. I'm uninstalling this right away.
